

CANADIAN CYTOMETRY & MICROSCOPY ASSOCIATION

August 11th 2013

RE: Curly Dog Communications

To whom it may concern,

I am writing to offer my recommendation for CDC as your event/conference organizer. The Canadian Cytometry and Microscopy Association employed CDC to direct our 4th symposium held this past June in Montreal.

Despite huge potential obstacles, including an event location under construction until a few days before the event, our symposium was smooth and seamless in line with our day to day programming.

CDC brings excellent experience and professionalism to any organization needing management of events, academic symposia or conference.

Sincerely,

Gisele Knowles
